Keterampilan Digital dan Karier di Industri TIK

Transformasi digital mengubah cara bisnis dan industri beroperasi

Automasi dan AI meningkatkan efisiensi tetapi juga mengubah kebutuhan tenaga kerja

Keterampilan digital menjadi kunci dalam persaingan di pasar kerja modern

Peran teknologi dalam menciptakan peluang kerja baru dan model bisnis inovatif

Digital transformation in business and recruitment

Digital transformation enhances efficiency and automation in business operations

Adoption of new technologies reshapes traditional industries and workflows

Data-driven decision-making improves competitiveness and innovation

Emerging digital platforms create new business models and market opportunities

Perubahan Tenaga Kerja akibat AI

AI automates repetitive tasks, shifting focus to higher-value work

Demand for AI and data-related skills is increasing across industries

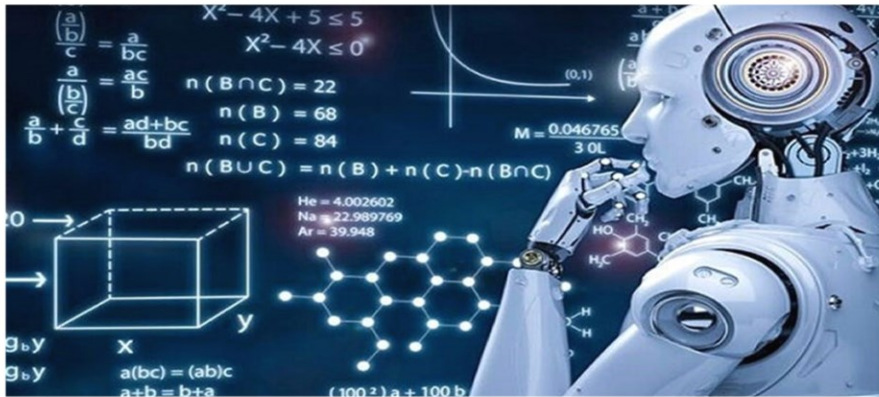

Reskilling and upskilling are essential to adapt to AI-driven job changes

New job roles are emerging, while some traditional roles are being redefined

Contoh Tenaga Kerja AI

AI-powered customer service chatbots handling inquiries and support

Automated data analysis and prediction models in finance and healthcare

AI-driven robotics in manufacturing and logistics for efficiency

Personalized recommendations and content curation in digital marketing

Peran Manusia dalam Jaman Tenaga Kerja AI

Humans focus on creativity, problem-solving, and ethical decision-making

Collaboration between AI and human workers enhances productivity

Emphasis on soft skills like critical thinking and emotional intelligence

Continuous learning and adaptation are key to staying relevant in the AI era

Bagaimana Sikap Seharusnya Mahasiswa Menghadapi Transformasi ke Tenaga Kerja AI?

Embrace	Embrace lifelong learning to adapt to evolving AI-driven industries
Develop	Develop critical thinking and problem-solving skills alongside technical expertise
Stay	Stay open to interdisciplinary collaboration between AI and various fields
Adopt	Adopt a growth mindset and proactively seek opportunities for upskilling

Work Force Skills Pyramid

Entry-Level Workforce

Junior employees.
Operational tasks.
Foundational skills.

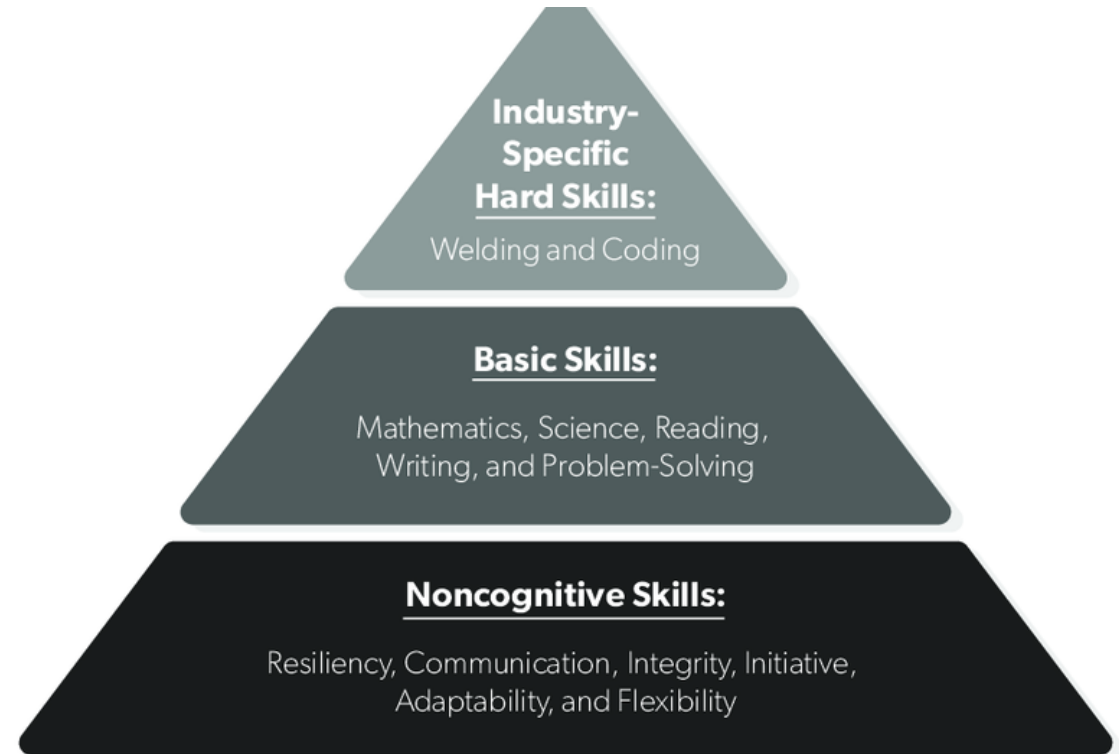

Middle Management

Supervisors and managers.
Executing strategies.
Requires leadership.

Top Leadership

Executives and directors.
Focuses on strategy.
Requires high-level leadership.

Bagaimana Seorang Mahasiswa Seharusnya Bersikap Terhadap Work Force Pyramid?

Build	Build a strong foundation by mastering essential skills and gaining practical experience
Develop	Develop leadership and problem-solving abilities to move up the workforce pyramid
Adapt	Adapt to technological advancements and continuously upskill for career growth
Network and seek	Network and seek mentorship to navigate career progression effectively

Thank You
